

Arrangement Catalogue

2018

TreeLocate (Europe) Ltd has established a reputation as one of the most innovative specialists in the design, manufacture, and supply, of preserved and artificial trees, plants, and flowers, in the world.

From single feature pieces to boulevards and faux forests, TreeLocate's attention to detail and realism make us the supplier of choice for architects, designers, landscapers, and project managers, in many industries.

Headquartered in North East England, TreeLocate has offices in Dubai and Hong Kong.

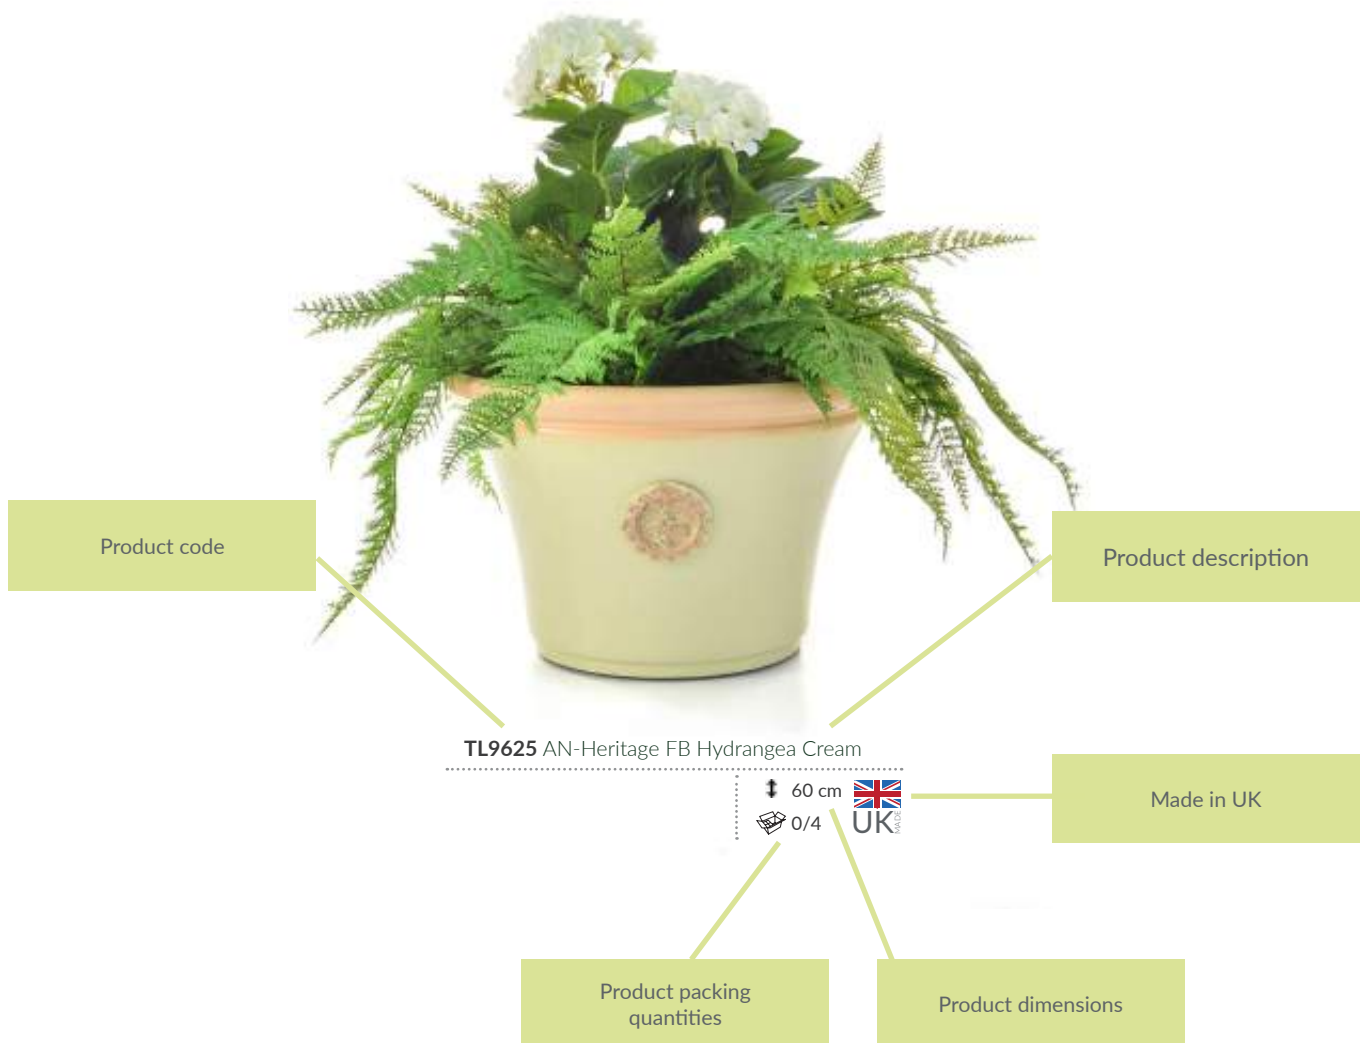

From miniature Bonsai to full size giant artificial / replica / faux / fabricated trees (whichever is your preferred terminology), Tree-Locate build them up to 30-metres tall for sectional assembly, or 13-metres as a single piece trunk. We use the latest manufacturing processes and materials, working to the specifications of your architects, designers, and structural engineers.

As an alternative, our own drawing office can provide a full design to build service based on your concepts and ideas.

Fully bespoke, or make-from-plans, has been our specialty for almost 20 years; working with many of the top names in global hospitality & leisure.

How to read our catalogue

This logo represents that the product has been designed and manufactured in the UK.
